Nomination and Corporate Governance Committee's Recommendation: The Company does not have a Remuneration Committee, therefore the Board has assigned the determination of remuneration for the directors to be carefully considered by the Nomination and Corporate Governance Committee, which has considered the remuneration by taking into account the suitability of business

activity, size and linkage with the Company's operation result being in line with the same market norm, as well as experience, duties and responsibilities of the directors. However, only Thai resident directors who do not receive salary from the Company are eligible to receive such directors' remuneration. Agenda Item 2: To consider and acknowledge the Annual Report 2017 of the Board of Directors on activities of the Company

The Corporate Secretary welcomed Mr. Finbarr O' Connor, Managing Director, to present the Company's 2017 business activities and the management discussion and analysis to the Meeting. The presentation was summarized follows:

Highlight of 2017 Operations

Total revenue increased by 2.6% resulted from the revenue from export increasing by 10.3%, while the domestic revenue decreasing by 5.9%, due to the followings:

- 1) Consumer Replacement tires decreased by approximately 7.4%;
- 2) Intense competition due to new competitors entering the market; and
- 3) Cost of main raw material increased in the first half of the year, by 18.6% in the first quarter and 16.2% in the second quarter.

The Company had increased the sale price of the products to be in line with the increased cost of the main raw material. This resulted in gross profit margin of the Company at the end of the year being at 19.3%.

Selling and administration expenses mainly resulted from writing off bad debts in an amount of Baht 20 million in the first quarter and the impact from exchange rate fluctuation in an amount of Baht 46 million.

Operational Activities

The Company had been focusing on expansion of the distribution networks, i.e. Goodyear Auto Care Service Centers which now consisted of 70 branches throughout the country, in order to provide the same standard service and strengthen recognition of Goodyear trademark by the consumers. In addition, the Company expanded its distribution networks through Modern Trade auto care service centers and distributors of multi-brand auto tires throughout the country.

In terms of expansion of radial aviation tires, the construction of the factory of radial aviation tires was on schedule and budget determined. The Chief Executive Office of The Goodyear Tire & Rubber in the United States came to visit the manufacture of the first tire in March 2018.

With regard to the development in the anti-corruption area, the Company conducted businesses in compliance with the Anti-Bribery Policy of Goodyear which applied globally to Goodyear businesses. The Company would reject business or benefit which could be earned by any improper payment, bribe, gift, rebate, or similar inducement. All associates of the Company must attend a training concerning the anti-corruption in 2018. The report of the Audit Committee showed that there were no corruption cases or illegal actions in the Company, including the matters relating to the construction of the factory of radial aviation tires. This year, the Company would participate in Collective Action Coalition of private sectors concerning anti-corruption.

Upon the completion of the presentation, the Chairman allowed the Meeting to raise questions.

Mr. Chaiphath Sahaskul, a holder of 500 shares, asked the following questions:

- 1) Has the Company resolved the issues relating to the bad debt and the exchange rate, and how;
- 2) Has the Company done hedging in relation to the exchange rate and how would the issue be resolved;
- 3) What would be an approximate return in relation to the aviation tire project and would the Company's revenue increase from the revenue in 2017;
- 4) What would be the Company's strategy in domestic market; and
- 5) How would the Company deal with Disruptive Technology in the future.

Mr. Finbarr O' Connor replied to the first question that the bad debt resulted from customers who had financial problems which resulted to repayment capability, and the Company had pressed for payment and completely collected such debt in the first quarter of the year 2018. The Company had been more cautious in relation to credit provided to the customers and required for additional security to support credit approval.

Mr. Oliver Gloe replied to the second and third questions that, for the second question, the Company's businesses consisted of two parts being export and domestic businesses with USD account and Baht account; therefore, the Company did not need to do hedging for exchange rate to take care of this risk, and that, for the third question, you could refer to details of expansion of radial aviation tire business in the report of the independent financial advisor that the investment was divided into three phases with total IRR at 9.9% and the IRR for the first phase was at 11.7%.

Mr. Finbarr O' Connor replied to the fourth and fifth questions that, for the fourth question, the business strategy of the Company focused on export and domestic markets. For auto tire business, the main market consisted of original equipment (OE) and replacement tire markets in both of which the Company planned to maintain as a competitive player by increasing distribution networks and maintaining quality of products. For aviation tire business, the main market was the export one the main customers of which were in Asia Pacific, ASEAN and middle east regions. For the fifth question, the Company thank you for the question. The Company did not have enough information to consider on this matter. The Company will require more study regarding an effect of disruptive technology to our business (if any).

Mr. Vichai Jirachoenkitkul, a holder of 8,400 shares, asked the following questions:

- 1) What was the progress of the construction of the factory of radial aviation tires in terms of percentage, how much budget had been spent so far, and when would the construction complete;
- 2) As it was reported that the first aviation tire was manufactured in March 2019, when would the Company recognize the revenue from the aviation tire business; and
- 3) As the project was promoted by the BOI, how much was the amortization rate and did the benefit only relate to the revenue or also an increased amortization rate, e.g. 1.5 times or 2 times.

Mr. Phiphat Vorapipat replied to the first and the second questions that, for the first question, the construction of the factory of radial aviation tires was on schedule and budget approved, and that, for the second question, the revenue would be recognized around the end of this year as the first tire manufactured in March was not for sale and the products would be subject to testing and certification in order to apply for license from relevant authorities.

Mr. Yeap Swee Chuan added in responding to the third question that the BOI benefit only related to the revenue.

Ms. Justyna Gebaska also replied to the third question that the amortization rate of the Company has been consistent with accounting standard applicable to the current businesses of the Company.

Ms. Chanapun Juangroongruangkit further informed the Meeting that the amortization period for machineries was not necessarily a five-year period, and under the BOI benefit, the

amortization would start when the Company recognized the revenue from the project. The BOI benefit did not specify the amortization rate and the benefit related to the profit of the project which was the relevant corporate income tax.

Mr. Weerasak Srisikew, a holder of 23,000 shares, asked the following questions:

- 1) When would the borrowing in relation to the investment project start;
- 2) How much would the amortization in relation to the assets of the investment project increase; and
- 3) What would be the proportion of export of the aviation tires.

Mr. Oliver Gloe replied to the three questions that the Company would draw down the loan in relation to the investment project at the time specified in the report of the independent financial advisor, that the amortization period, the average of which was 12-year in accordance with the accounting standard, would not be affected this year, and that proportion of export and domestic sale of the aviation tires was approximately 90% and 10%.

There were no further questions from the Meeting on this agenda item. Since this agenda item was for acknowledgement, no voting was required. Then, the Chairman asked the Corporate Secretary to proceed with Agenda Item 3 accordingly.

Agenda Item 3: To consider and approve the Company's Financial Statements for the year ended 31 December 2017 with the auditor's report thereon

Ms. Napat reported the Company's operating results as follows:

The Company's financial statements (partial)

Unit: Baht Million

Item	Amount	
	2017	2016
Total Assets	5,676	5,285
Total Liabilities	1,668	1,261
Total Revenue	4,000	3,898
Net Profit	138	280
Basic Earnings Per Share (Baht/Share)	18.65	37.77

The Board of Directors opined that the Meeting should approve the Company's financial statements for the year ended 31 December 2017 which have been audited by the certified public auditor and considered and consented by the Audit Committee, as well as the auditor's report.

Then, the Chairman allowed the Meeting to raise questions about the financial statements.

Mr. Vichai Jirachoenkitkul, a holder of 8,400 shares, posed the questions regarding the reason that the net profit decreased and the estimated impact from the cost of the raw material.

Mr. Finbarr O' Connor replied to the question that there were three main reasons which are (1) the cost of the raw material increased by 20% during the first and second quarters of 2017, (2) the write off of bad debt in an approximate amount of Baht 20 million and (3) the impact from exchange rate in an approximate amount of Baht 46 million.

Mr. Oliver Gloe also replied that there was the increase of the cost of the raw material but the rotation of the material for manufacture was quick so the assessment was not made as a total amount.

Mr. Vichai Jirachoenkitkul further asked for clarification on the effect on the Company's profit considering that the business model of the Company applied the Cost Plus method.

Mr. Finbarr O' Connor provided a clarification that the domestic sale was effected by the increase of cost of raw material as the Company could not shifted the entire cost to the consumers. The Company had increased the price of the products while its competitors did not increase the sale price; therefore, the Company had lost certain customers due to this fact.

Mr. Oliver Gloe added that the Cost Plus method was applicable to export business, not the domestic business in which the sale was effected by the fact that not all increased cost could be shifted to the consumers.

There were no further questions from the Meeting on this agenda item. The Chairman asked the Meeting to consider and approve the Company's financial statements for the year ended 31 December 2017 which have been audited by the certified public auditor and considered and consented by the Audit Committee, as well as the auditor's report, as proposed by the Board of Directors.

Resolution: The Meeting considered and approved the Company's financial statements for the year ended 31 December 2017 which have been audited by the certified public auditor and considered and consented by the Audit Committee, as well as the auditor's report with the following votes:

Mr. Andrew Michael Cooper as directors for another term. The three directors possessed qualifications in accordance with the Public Limited Company Act and relevant notifications of the Capital Market Supervisory Board. The Board also considered that Mr. Athaporn Khaimarn as an independent director will provide his opinion independently and comply with the related regulations. The three directors who have been nominated were not present in the meeting room of the Board and did not cast their votes in the meeting.

The Chairman allowed the shareholders to raise questions.

Ms. Prapasri Jitpattanapaiboon, a proxy from the Right Protection Volunteer Club, Thai Investors Association, holding 1 share, asked for clarification, as the independent director nominated for re-election had worked for more than 9 consecutive years, if the Company had a guideline for term of office of the independent directors and if the Company had a policy on this matter.

The Chairman answered the questions as follows:

- 1) Mr. Athaporn Khaimarn has qualifications beneficial to the Company's operations due to his expertise in the financial and accounting aspects. Also, his past performance as an independent director was satisfactory. He has been providing opinions that are useful for the Company's operations.
- 2) The Company has not yet determined an office term for an independent director who has been in office for more than 9 consecutive years, but the Company would take this into consideration.

Agenda Item 6: To consider and approve the directors' remunerations for the year 2018

Ms. Napat requested the Meeting to consider the 2018 remuneration for the Company's directors with the following details:

Opinion of the Nomination and Corporate Governance Committee The Company does not have a Remuneration Committee, therefore the Board has assigned the determination of remuneration for the directors to be carefully considered by the Nomination and Corporate Governance Committee, which has considered the remuneration by taking into account the suitability of business activity, size and linkage with the Company's operation result being in line with the same market and industrial norm, as well as experience, duties and responsibilities of the Board. However, such determination of remuneration for the directors and subcommittees have been carefully considered by the Nomination and Corporate Governance Committee and the Board of Directors by comparing with the same industry and taking into account the business expansion and profit growth of the Company.
